# RUSH AND LUSK

EDUCATE TOGETHER NATIONAL SCHOOL

We are thrilled to announce that we were nominated as a DCU Changemaker School. DCU is Dublin City University and we will become one of their partner schools this year.

Following a school visit and interview with the school team, the judging panel were very impressed with how our school fosters a culture wherein empathy, inclusion, creativity, leadership and teamwork are all cultivated to provide the best school experience for our students.

We will officially become a DCU Changemaker School at the end of February.

We would like to acknowledge all the hard work done by our entire school team and children to earn this unique recognition and thank all our school community who support us in our daily work .
